

ECO CERTIFICATE GRÜNER PUNKT

By participating in our dual system
for recycling of sales packages, the company

FFC Fresh Fruit Company GmbH
20097 Hamburg

in 2018 contributed towards saving:

	12,459 kg CO ₂ equivalents
	6,311 kg crude oil equivalents
	< 1 kg phosphate equivalents
	498,749 MJ primary energy
	12 kg sulfur dioxide equivalents

The CO₂ saved corresponds to the amount produced if 358 passengers would take a round trip on the train from Hamburg to Erfurt (calculated through ecopassenger.org).

Recycling reduces greenhouse gases and as such is an important contribution towards climate protection. Der Grüne Punkt publishes its annual balance of environmental performance since 2001 which confirms this positive effect on the environment. The environmental performance balance is regularly reviewed by the experts from IFEU in Heidelberg.

Haucke Schlüter
Spokesman of the Board
